Hi Anthony,

If it's easier, just email your entries to me for this week in the following format:

Interstate 290 (Eisenhower Expressway) Draft EIS Review: On February 10, EPA rated this project as **Insufficient Information (EC-2)**. We asked for clarification on environmental justice and children's health, air quality, and community outreach. This project will reconstruct this expressway (which includes a high-occupancy toll lane) from Mannheim Road in Hillside to Racine Avenue in Chicago and from the CTA Forest Park Blue Line L Terminal to Mannheim Road.

Bold the title of the activity and then keep the description to no longer than 5 lines.

In looking at the report you sent, here are the ones that stand out:

-Tribal Relations: response to tribal requests (Little River, Grand Portage, Sag Chip)

-Planning: Concurrence on letter for A-AA signature (Menominee)

-International Relations: Hosting the French delegation

Thanks!
